NOTICE INVITING PROPOSALS

The Passaic Valley Sewerage Commission (PVSC) is soliciting proposals from qualified Proposers to provide Oxygen Production Facility Equipment. PVSC utilizes pure oxygen in its secondary wastewater treatment process. The oxygen is generated onsite by a cryogenic facility that has been in operation for approximately 40 years. The facility has reached the end of its useful life. The facility is also inefficient. In order to properly treat the wastewater, a new Vapor Pressure Swing Adsorption (VPSA) System needs to be constructed to provide a more reliable, energy efficient Oxygen Generation System as specified herein.

CONTRACT NO. B355

OXYGEN PRODUCTION FACILITY EQUIPMENT PROCUREMENT

Proposals are to be enclosed in opaque sealed envelopes, addressed to the **Passaic Valley Sewerage Commission, Purchasing Department, Public Meeting Room of the Administration Building, 600 Wilson Avenue, Newark, New Jersey 07105**, with name and address of Proposer, Contract Numbers, Contract Name and Proposal Submission Date plainly marked outside. Proposals will be accepted by mail. Proposals must be sealed and identified as indicated above, enclosed in a mailing envelope with proper postage, and received during the time set for receiving proposals.

Sealed Proposals shall be received by PVSC on **October 24, 2025, until 10:00 a.m.** in the morning, prevailing time. Proposals shall be opened publicly and read aloud on **October 24, 2025, at 10:00 a.m.** at PVSC's Public Meeting Room in PVSC's Administration Building.

All proposals shall be opened publicly (via Zoom), announced, read aloud (after the closing time, 10:00 a.m. in the PVSC Purchasing Department) and recorded via the Zoom Conferencing Application. At that time and place, the sealed proposals will be publicly opened, announced, and available in real time and recorded via the Zoom Conferencing Application at [<https://pvsc.zoom.us/j/2496333971>]. Proposers can also dial into the proposals opening by phone at [+1 646 876 9923], access code [249 633 3971].

Proposals may be withdrawn or modified prior to the time for the opening of proposals or the authorized postponement thereof. No proposal may be withdrawn for a period of sixty (60) calendar days after the date of the opening of proposals.

Point of Contact for RFP Inquiries: Thomas Fuscaldo
Purchasing Agent
Email: tfuscaldo@pvsc.com

The person listed above is the only point of contact for any inquiries regarding any aspect of this Request for Proposal (RFP).

In the event that a potential proposer obtains the RFP in any manner other than as specified herein, the PVSC will not have the contact information of the potential Proposer for purposes of issuing addenda, if any. The non-receipt of any addenda (in the event that any addenda are issued) and the failure of the Proposer to acknowledge the receipt of any and all addenda at the time of proposal submission shall be considered a fatal defect in such Proposer's submission and said proposal shall be immediately rejected. Therefore, if a potential proposer obtains the RFP in any manner other than as specified herein, said Proposers shall promptly provide written notice to PVSC accordingly.

Security Notice: All contractors, subcontractor's employees and/or representatives entering the plant must have and must present to PVSC Security, government issued identification such as a valid picture Driver's License or Passport. This applies to proposals openings, pre-proposals conferences and all on-premises contract work.

The Contract is expected to be funded in part with funds from the New Jersey Department of Environmental Protection (NJDEP) and the New Jersey Environmental Infrastructure Trust (NJEIT). Neither the United States nor the State of New Jersey, the NJEIT, nor any of their departments, agencies, or employees is, or will be, a party to the Contract or any lower tier contract or subcontract.
